

Colonne doccia da Esterno-Interno

CRIWX710

For a luxury hotel context or in a private garden, the Indoor & Outdoor Showers are the ideal complement for moments of relaxation and leisure outdoors or in wellness environments. Four different diameters allow for a personalised choice in each environment and relative needs. All the proposals exploit the advantages of the material they are made: stainless steel, answering fully to the demands of resistance, unalterability, hygiene, ease of cleaning and use, required by the worldwide contract sector. The series includes versions with mechanical, progressive and, mixing and timed flow (equipped with timed foot jet). Antifreeze water drainage system to preserve the product during the winter months when used outdoors. It is recommended to close the system and empty the excess water by opening the control handle and unscrewing the plugs at the base. To reactivate proceed in the reverse way.
