ENG

Danish design Made in Denmark

Edge by Hammel is a furniture series with edge: Stylish, minimalist and no knobs.

The series has arisen in the meeting between Danish design and urban living. In the meeting between the city's modern pulse and nature's strong materials.

The result is a functional and flexible design that provides with you ample opportunity for personal décor in all the rooms of your home.

The Edge series comes from Hammel Furniture, which maintains a focus on creating quality furniture uniting Danish tradition with progressive design.

Hammel Furniture designs, manufactures and assembles all its furniture in Denmark itself. Edge also stands for fine Danish craftsmanship. Expertly and stylishly performed down to the most minute detail.

Edge by Hammel
made in Denmark

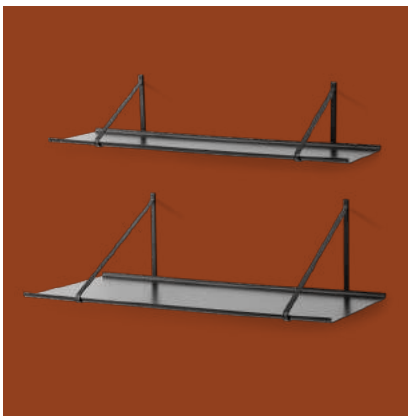

Minimalistic design

Clean lines in a very simple and crisp design.

Edge by Hammel maintains style all the way, and the grippless drawers and doors emphasise the minimalist design.

No. 053

Nordic vibes Danish hygge

Nordic interior design is all about simplicity in design and colour choices.

Edge by Hammel consists of black, white and muted natural colours, all of which emphasises the minimalist design.

It is urban living with Nordic vibes.

The beauty of the details

Rich details help give the décor of your home edge and personality – and that's precisely what you get with Edge by Hammel.

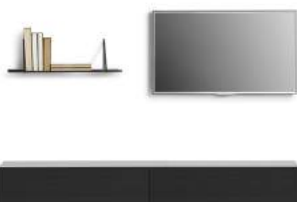

All the furniture in the Edge series is well thought out, right down to the last detail - both visually and functionally. And behind the sleek and lightweight design, there is strong and solid craftsmanship.

Clever design

Edge by Hammel is smart design, where functionality and aesthetics merge together into furniture with tremendous flexibility.

Smart because the elements are designed so that they can be combined to suit individual needs – with a quality standard that tolerates being moved around. So that you can always adjust and personalise your décor according to your needs and to accommodate new ideas that may arise in the future.

Smart because the easy visual expression is a designed illusion built on solid craftsmanship – and smart because the gripless drawers and doors elegantly open up with the slightest of effort.

Edge offers many more smart details, all of which have the same purpose: To provide you a décor with an edge.

For web

Link for the configurator is available at www.hammel-furniture.com.

At the website you can also see a short movie showing "how to" use the configurator and make your own arrangement based on many cabinets, fronts and colours.

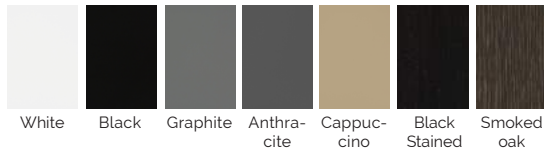

For mobile & tablet

Download the Hammel app from App store or Google Play.

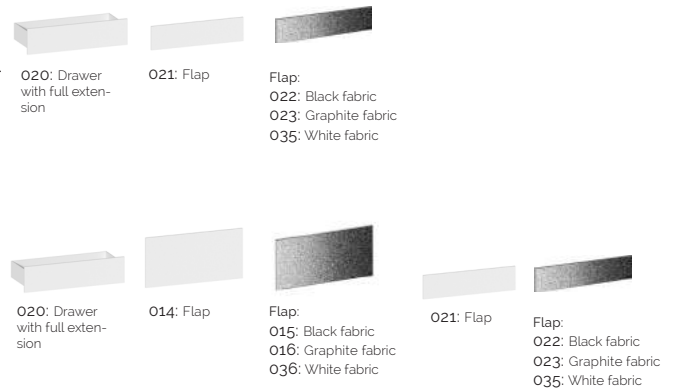

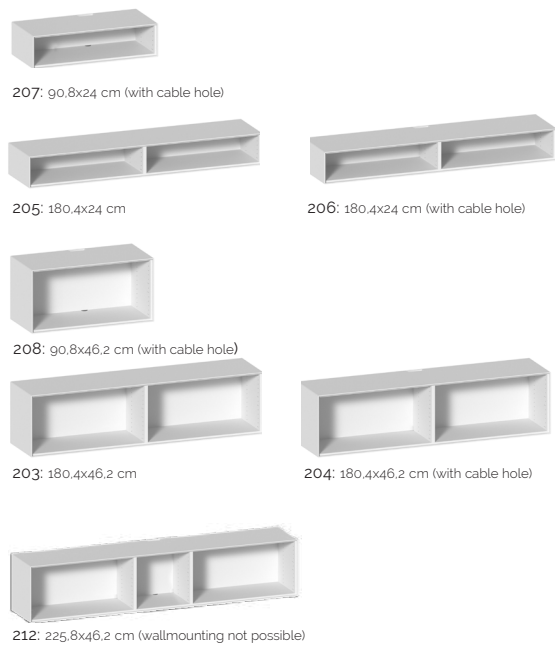

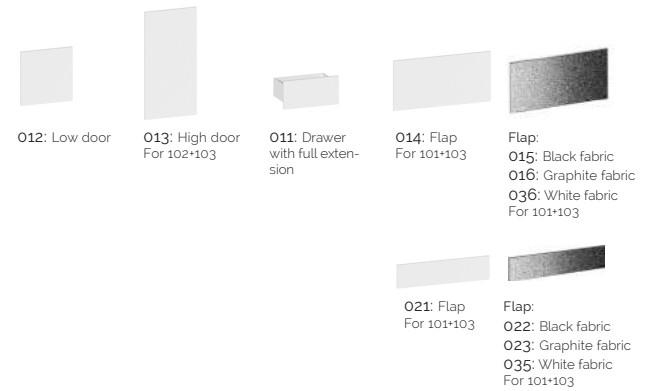

Go wild with the Configurator drawing software and play with all the possibilities. Arrange basic modules and fronts just the way you want. It's easy, and you can share with your entire family, friends, or take a printout with you to your dealer.
